Dear Sirs,

Please settle this matter as quickly as possible. It seems to us that from the time the Justice Department began this suit, the stock market has had a very difficult time staying out of the basement.

The completion of Microsoft should just work a little harder. Amazing that the states still opposing this settlement have tech companies who are not doing quite so well.

Good it be sour grapes?

You have far more important matters to be concerned with at this time. Let's just get this over.

Sincerely,

Ann and Bob Maier-Sugg
